

# Funeral and Memorial Menu 2019

When we lose a loved one, there are many things to do in a short amount of time while we are under emotional distress.

Let CK Catering help your family through this time with patients and professional service. To select and finalize the best menu, we can either meet face to face or speak over the phone, whichever is most convenient. Most menus are customized.

The food following funerals and memorial services range from light lunches, such as finger foods, for stand up receptions to a more substantial meal. A Buffet Attendant is available, if needed.

Whatever you select, know our family is here for you and yours during this difficult time.
